SUBJECT: Message Handling Facility (MHF) Staffing
Requirements [REDACTED]

During the OC/ODP seminar on 10 March 1981, the question of the number of applications programming personnel required to staff the MHF project was discussed. For your information, I have attached a table of projected manpower requirements prepared by the MHF project team. This table represents the team's tentative thinking at this point in the requirements phase; I expect these estimates will be revised at the conclusion of the requirements gathering process. [REDACTED] is available on secure, to answer any questions concerning the estimates.
